A DOCUMENTARY ARCHIVE

GO BUS HISTORY MAPS

A reader's guide to routes, dates and evidence

Find a route, compare the surviving maps, and follow its ordered stops back to the original sources.

Latest captured network: 23 October 2026. Lines combine the patterns in that feed; they are not a map of simultaneous departures. Ontario mainland reference backdrop.

RESEARCH EDITION 23 OCTOBER 2026

START WITH THE EVIDENCE

How to read this archive

Choose a route in the numeric index, then open its PDF. Each route brings together a sourced history, dated maps and the stop order behind each documented version.

Three kinds of route line

Original feed geometry

A line supplied in a GO operating-data feed. Some lines are clipped to the trip's first and last stops; detail is simplified for display.

Reconstructed historical corridor

A research reconstruction, identified in the caption. It may use modern road references and generalized terminal approaches.

Schematic stop connections

A dashed line preserves the known stop order. It does not establish which roads the bus used between those points.

Read the caption and location notes. A solid reconstructed line is not original operating geometry. A station or junction marker may be a reference area from another year; it does not certify an old bus bay.

Dates answer different questions

Capture date	When a feed was archived or downloaded. Its service calendar can begin earlier or extend later.
Effective date	The stated start date in a timetable or service-change notice.
"By" a date	A surviving source establishes that the service existed by then; its precise introduction date may remain unknown.

Where to go next

Four captured networks pages 3-4

Routes in numeric order pages 5-7

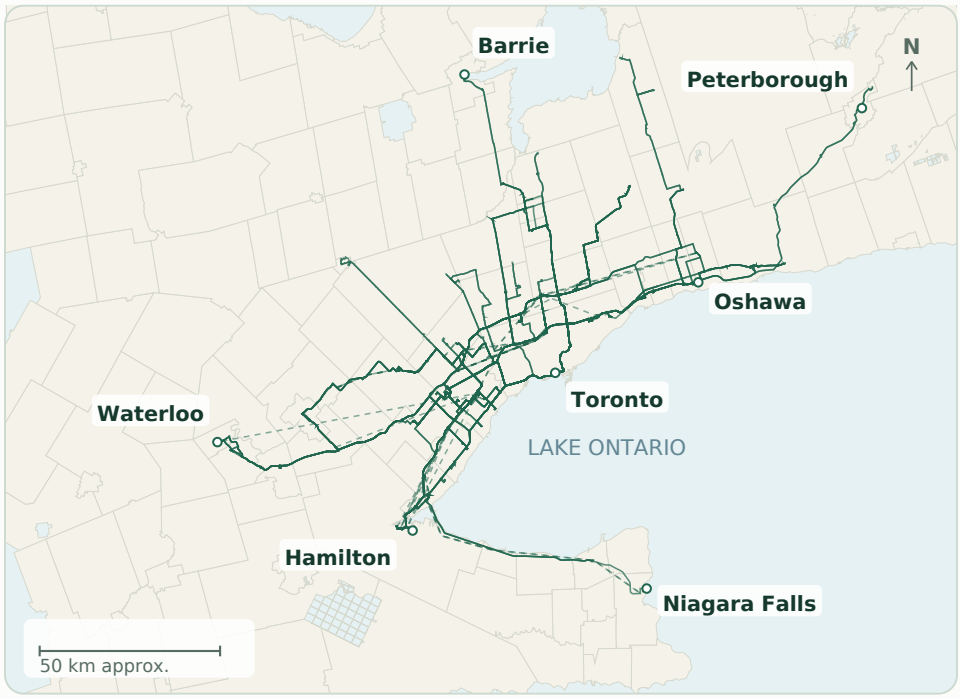

Named legacy services, sources and limits page 8

FOUR SNAPSHOTS, NOT A CONTINUOUS RECORD

The network in 2016 and 2022

The maps share the same extent and scale. Each combines every pattern contained in that captured feed, including trips scheduled on different dates.

Supplied geometry Schematic connections

2016

11 January

FEED CAPTURE

41 route families

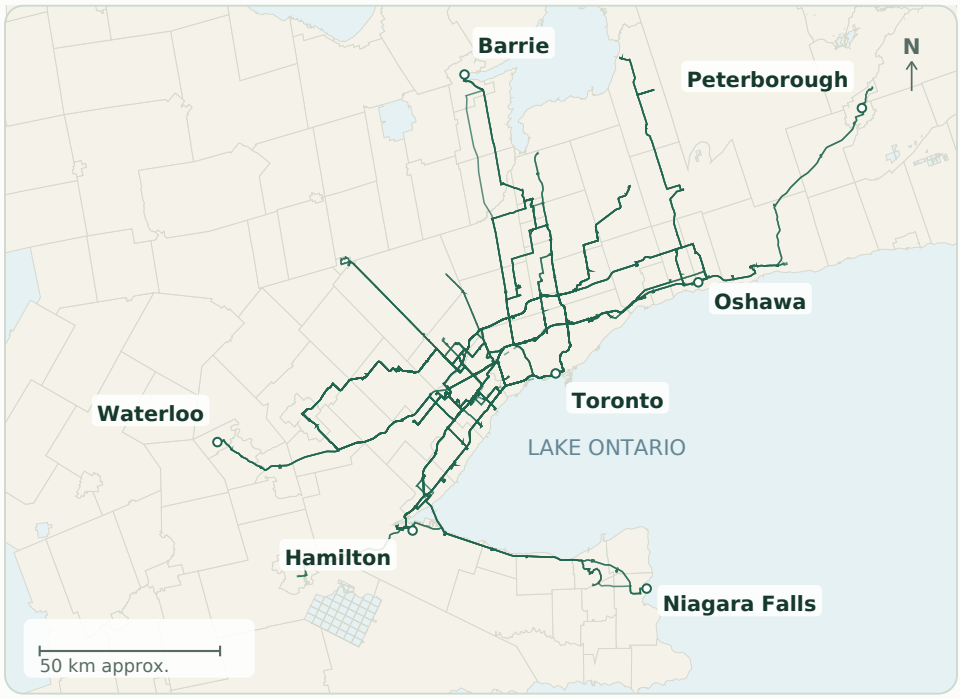

472 directional patterns

Service dates represented

2 Jan 2016
to 1 Apr 2016

415 use supplied geometry
57 use schematic connections

Source feed and metadata

2022

8 March

FEED CAPTURE

39 route families

324 directional patterns

Service dates represented

27 Jan 2022
to 1 Apr 2022

322 use supplied geometry
2 use schematic connections

Source feed and metadata

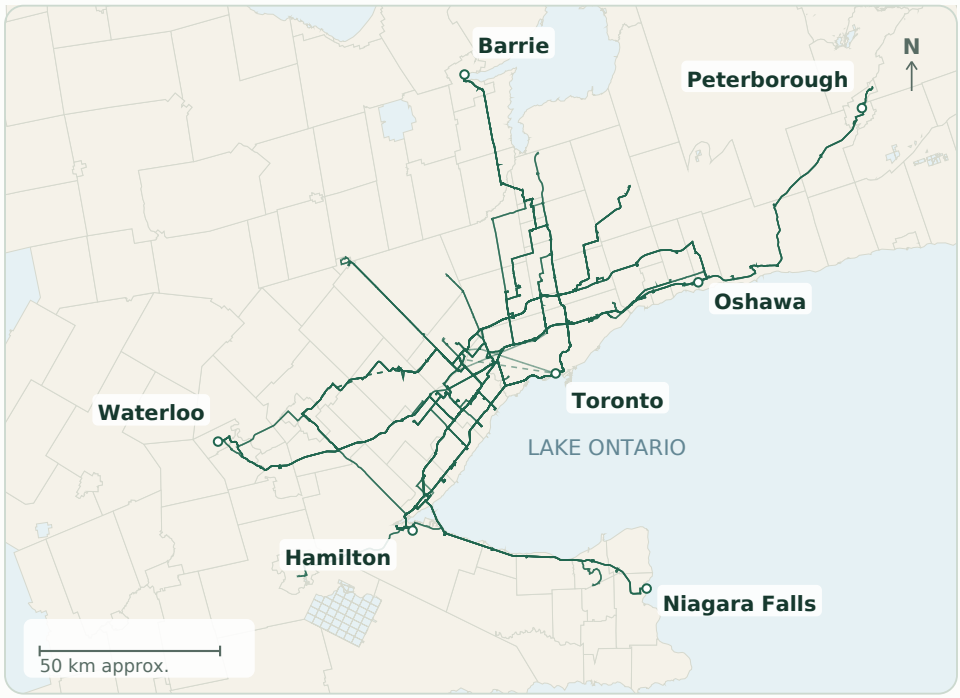

Counts reflect documented directions, branches, restrictions and source geometry - not service frequency. Modern Ontario mainland is reference geography; source detail is shown at overview scale.

FOUR SNAPSHOTS, NOT A CONTINUOUS RECORD

The network in 2023 and 2026

The maps share the same extent and scale. Each combines every pattern contained in that captured feed, including trips scheduled on different dates.

Supplied geometry Schematic connections

2023

Route index: 11-35

Patterns combine all captured directions and documented historical versions. A reused number can represent different services in different eras.

ROUTE	SERVICE FAMILY / ERAS	STATUS	PATTERNS
11	Brock University; formerly Niagara-on-the-Lake seasonal shuttle	Current	3
12	Niagara Falls / Burlington	Current	33
15	Brantford / Aldershot; formerly McMaster / Burlington	Current	18
16	Hamilton / Toronto Express	Current	14
17	Waterloo / Hamilton	Current	6
18	Lakeshore West	Current	86
19	Mississauga / North York	Current	37
20	Milton / Oakville	Discontinued	6
21	Milton	Current	101
22	Milton / Oakville; formerly Hamilton / Meadowvale Business Park	Current	4
24	Cambridge / Milton	Discontinued	1
25	Waterloo / Mississauga	Current	40
27	Milton / North York	Current	44
29	Guelph / Mississauga	Current	19
30	Kitchener / Vaughan; formerly Kitchener / Bramalea	Current	26
31	Guelph / Toronto	Current	94
32	Brampton Trinity Common / North York	Current	27
33	Guelph / North York	Current	69
34	Pearson Airport / North York; formerly Brampton local	Discontinued	9
35	Union Pearson Express replacement; formerly Brampton / Highway 27	Special	3

Current means present in the latest captured feed. **Special** includes replacement service. Check the recorded service dates; neither status means a bus runs every day.

Route index: 36-62

Patterns combine all captured directions and documented historical versions. A reused number can represent different services in different eras.

ROUTE	SERVICE FAMILY / ERAS	STATUS	PATTERNS
36	Brampton / North York Express	Current	19
37	Orangeville / Brampton	Current	24
38	Bolton / Malton; formerly Highway 27 / North York	Current	18
39	Guelph / Aberfoyle / Bramalea	Discontinued	1
40	Hamilton / Richmond Hill (formerly Pearson Airport Express)	Current	26
41	Hamilton / Pickering; earlier Orangeville route number	Current	22
42	Bolton (renumbered 38 in 2008)	Discontinued	1
43	Mount Pleasant / McMaster University; earlier Wonderland route number	Current	4
45	Streetsville / York University; later Mississauga / Markham	Discontinued	18
46	Oakville / York University; later Oakville / Highway 407	Discontinued	12
47	Hamilton / Highway 407 (formerly York University and Yorkdale)	Current	74
48	Guelph / Highway 407 (formerly Meadowvale / York University)	Current	28
50	Unionville / Centennial College / University of Toronto Scarborough	Discontinued	1
51	Pickering / York University; later Pickering / Highway 407	Discontinued	28
52	Oshawa / Highway 407 (formerly Oshawa / York University)	Current	40
54	Mount Joy / York University; later Mount Joy / Highway 407	Discontinued	24
56	Oshawa / Oakville	Current	15
60	Canada's Wonderland	Discontinued	2
61	Richmond Hill	Current	21
62	Newmarket B / Yonge Street	Discontinued	2

Current means present in the latest captured feed. **Special** includes replacement service. Check the recorded service dates; neither status means a bus runs every day.

Route index: 63-98

Patterns combine all captured directions and documented historical versions. A reused number can represent different services in different eras.

ROUTE	SERVICE FAMILY / ERAS	STATUS	PATTERNS
63	King City-Toronto	Discontinued	9
64	Newmarket-York University	Discontinued	1
65	Newmarket-Toronto / Barrie corridor	Current	71
66	Newmarket Highway 400 / East Gwillimbury Express	Discontinued	22
67	Keswick-North York / earlier Newmarket Highway 404	Current	16
68	Barrie-Newmarket / Barrie corridor	Current	41
69	Sutton-Newmarket; later Aurora-Newmarket	Discontinued	5
70	Uxbridge-Stouffville rail connections	Current	32
71	Stouffville-Toronto	Current	56
80	Pefferlaw-Beaverton	Discontinued	1
81	Port Perry-Whitby / Beaverton	Discontinued	13
88	Peterborough-Oshawa	Current	25
90	Lakeshore East / former Newcastle-Oshawa local	Current	32
91	Newcastle-Oshawa express	Discontinued	5
92	Oshawa-Yorkdale	Current	27
93	Durham College / UOIT-Scarborough Centre	Discontinued	6
94	Oshawa Highway 2; reused Pickering-Mississauga	Current	11
95	Oshawa Highway 2 Express-Finch	Discontinued	1
96	Oshawa-Finch Express	Current	32
98	Pickering-Finch Express	Discontinued	2

Current means present in the latest captured feed. **Special** includes replacement service. Check the recorded service dates; neither status means a bus runs every day.

Catalog and route coverage | Named legacy services

KEEP NAMES, ROUTE NUMBERS AND EVIDENCE SEPARATE

Legacy services & source notes

Some older timetables used table identifiers that are not evidence of a public route number. These named corridors are therefore filed separately.

Bayview GO Bus Service

2 documented versions

Open the illustrated PDF

Yonge C / North Yonge Local

3 documented versions

Open the illustrated PDF

Follow the evidence

Original operating data

The four GO / Metrolinx feeds supply branch labels, ordered stops, geometry and service dates. Captures, feed metadata and checksums.

Timetables and service changes

Route histories cite the actual original timetables, operator notices and labeled secondary reporting. Full source directory.

Discovery catalog

The archive indexes 2,128 timetable links. An indexed link is not a claim that the document was reviewed or that its table number proves a route. Timetable catalog.

What the surviving record does not establish

The collection is documentary, not an unbroken history of every trip since GO bus service began. Missing intermediate timetables, temporary diversions and unprinted roadside stops remain research gaps. Manual patterns often preserve major timing points rather than every stop.

Unknown locations remain in the correct stop order. Reference coordinates and modern road geography do not prove an exact historical platform, roadway or municipal boundary. Methodology and location notes.

DATA PERMISSION & GEOGRAPHIC CREDIT

Data used in this product or service is provided with the permission of Metrolinx. Metrolinx makes no representations or warranties of any kind, express or implied, with respect to the Data and assumes no responsibility for the accuracy or currency of the data used in this product or service.

Ontario mainland boundaries: Ontario Ministry of Natural Resources, Open Government Licence - Ontario. Selected historical reference geometry: OpenStreetMap contributors, ODbL 1.0. Credits and original-data terms.

An independent history project. For present-day journeys, consult official GO Transit schedules.
