11 Brock University; formerly Niagara-on-the-Lake seasonal shuttle

The number has two distinct documented uses: a seasonal St. Catharines-Niagara-on-the-Lake train shuttle in the 2010 s, and the Brock University corridor renumbered from 18K in 2024.

3	2012 - 2026	32
documented patterns	evidence years	listed stop occurrences

Illustrated pattern: 11 | 11 - Brock University | Scheduled 22 Oct 2026 - 27 Nov 2026; feed captured 23 Oct 2026

A dated documentary atlas. Every pattern has its own numbered map and complete documented stop list. Reconstructed major-stop lists and full scheduled GTFS stop lists are identified separately.

Contents

Use the clickable entries or PDF bookmarks to jump to a date, branch or direction. Pattern counts include separate directions, stopping patterns and boarding restrictions.

Route history

A snapshot proves what was published at that date. It does not by itself establish when a route began or ended. Reused route numbers and changing branch suffixes remain separate dated records.

- **2012-06-23**

  The new St. Catharines rail station-Niagara-on-the-Lake shuttle began its first summer season, running through 3 September. [S1]

- **2012-09-04**

  GO identified the seasonal Niagara-on-the-Lake shuttle as route 11 when announcing the end of its 2012 season. [S2]

- **2016**

  Seasonal route 11 Niagara-on-the-Lake train-meet service remained documented. [S3]

- **2021-09-07**

  Predecessor 18K began weekday service to Brock University from the Hamilton corridor. [S4]

- **2024-04-27**

  Brock University branch 18K was renumbered 11 in the April reorganization. [S5]

- **2024-08-31**

  The original Lakeshore West booklet confirms the new route 11 number. [S6]

Reading the maps

- Original GO feed: all scheduled stops are retained in their source order, including no-pickup and no-drop-off restrictions. The exact service dates are printed with the pattern.
- Historical reconstruction: the list generally contains published timing points or major stops. It is complete for that documented reconstruction, and may omit intermediate roadside stops.
- Solid lines use supplied feed shapes or an explicitly labelled corridor reconstruction. Dashed lines connect stop areas schematically. Number ranges mark close or co-located stops.
- Reference coordinates do not prove an old platform location. Stops without established coordinates remain in the ordered list; a stop-order diagram is used when a geographic map cannot be drawn.

Evidence notes - continued

- The last season and withdrawal date of the old Niagara-on-the-Lake shuttle are unknown.
- The old shuttle and the later Brock route are separate eras, not one continuous alignment.
- The April 2024 renumbering date is from a contemporary secondary account; the new number is independently confirmed in the original August timetable.
- GTFS dates identify captured feeds, not necessarily the first or last day of a route. Open a pattern to see its exact scheduled service dates. Temporary rail replacement and special-service patterns are included when present in the source.
- Manually reconstructed versions generally contain published timetable timing points / major stops. They must not be read as complete roadside stop inventories.

HISTORICAL RECONSTRUCTION | PATTERN 01 OF 3

11 | Original seasonal Niagara-on-the-Lake shuttle

Documented: 2012-06-23 | Direction: Eastbound

DOCUMENTED MAJOR STOPS / TIMING POINTS 2 stops

Sources: [S1] [S2]

STOP-ORDER DIAGRAM

Numbers follow the complete ordered list below. Geography is not implied.

Dashed line: schematic stop connections, not a street-by-street alignment. 1 stop location(s) remain unestablished; see the complete list. Stop areas do not establish exact historical platforms.

Selected published timepoints or named stops, not an exhaustive curb-stop list. Connectors are schematic and do not establish the roads taken. Endpoint-only reconstruction. The exact Niagara-on-the-Lake curb location and intermediate stops are unverified.

Ordered stops

1. St. Catharines VIA / GO rail station
2. Niagara-on-the-Lake
   Location not established
