12 Niagara Falls / Burlington

A Niagara-Lakeshore rail feeder developed from Burlington-Stoney Creek service, subsequently extended to Niagara Falls with express and short-turn variants.

33	2009 - 2026	215
documented patterns	evidence years	listed stop occurrences

Illustrated pattern: 12 | 12 - Burlington Carpool | Scheduled 22 Oct 2026 - 27 Nov 2026; feed captured 23 Oct 2026

A dated documentary atlas. Every pattern has its own numbered map and complete documented stop list. Reconstructed major-stop lists and full scheduled GTFS stop lists are identified separately.

Route history

A snapshot proves what was published at that date. It does not by itself establish when a route began or ended. Reused route numbers and changing branch suffixes remain separate dated records.

- **2008-06-28**

  Route 12 began between Burlington GO and Stoney Creek; Ontario later confirmed the June 2008 launch. [S1] [S2]

- **2009-09-05**

  Year-round Niagara Falls-Burlington service began via St. Catharines, Grimsby and Stoney Creek. [S3]

- **2009-10-31**

  The original table shows the full Niagara Falls VIA-Burlington route via Fairview Mall and Nash / Barton. [S4]

- **2011-09-03**

  The timetable documents Friday express 12B toward Niagara Falls and 12D from St. Catharines toward Burlington. [S5]

- **2023-04-08**

  The table serves Niagara College's Niagara-on-the-Lake campus, Beamsville and Confederation GO; 12C trips were also increased. [S6] [S7]

Reading the maps

- Original GO feed: all scheduled stops are retained in their source order, including no-pickup and no-drop-off restrictions. The exact service dates are printed with the pattern.
- Historical reconstruction: the list generally contains published timing points or major stops. It is complete for that documented reconstruction, and may omit intermediate roadside stops.
- Solid lines use supplied feed shapes or an explicitly labelled corridor reconstruction. Dashed lines connect stop areas schematically. Number ranges mark close or co-located stops.
- Reference coordinates do not prove an old platform location. Stops without established coordinates remain in the ordered list; a stop-order diagram is used when a geographic map cannot be drawn.

Evidence notes - continued

- The archive's 2011 table 13 Niagara Falls / Toronto document is train-only, not evidence of a separate bus route 13.
- Dates of every park-and-ride relocation and lettered-branch introduction remain incomplete.
- GTFS dates identify captured feeds, not necessarily the first or last day of a route. Open a pattern to see its exact scheduled service dates. Temporary rail replacement and special-service patterns are included when present in the source.
- Manually reconstructed versions generally contain published timetable timing points / major stops. They must not be read as complete roadside stop inventories.
