16 Hamilton / Toronto Express

The Hamilton-Union express has QEW bus predecessors; numbered route 16 is firmly documented in original early-2000 s schedules.

14	2004 - 2026	124
documented patterns	evidence years	listed stop occurrences

Illustrated pattern: 16 | 16 - Hamilton GO | Scheduled 22 Oct 2026 - 27 Nov 2026; feed captured 23 Oct 2026

A dated documentary atlas. Every pattern has its own numbered map and complete documented stop list. Reconstructed major-stop lists and full scheduled GTFS stop lists are identified separately.

Route history

A snapshot proves what was published at that date. It does not by itself establish when a route began or ended. Reused route numbers and changing branch suffixes remain separate dated records.

- **1970-1971**

  Hamilton-Toronto highway express operation transitioned from Gray Coach into GO during GO's first bus-service year. [S1]

- **1979**

  The Hamilton express adopted a Gardiner / University Avenue downtown approach. [S1]

- **1996-04-27**

  Hamilton bus service moved into the new Hamilton GO Centre. [S1]

- **2004-09-04**

  Route 16 is documented between Hamilton GO Centre and Union with direction-specific Hamilton street stops. [S2]

- **2019-01-05**

  The timetable retains Hamilton GO Centre and Union as the express terminal pair. [S3]

Reading the maps

- Original GO feed: all scheduled stops are retained in their source order, including no-pickup and no-drop-off restrictions. The exact service dates are printed with the pattern.
- Historical reconstruction: the list generally contains published timing points or major stops. It is complete for that documented reconstruction, and may omit intermediate roadside stops.
- Solid lines use supplied feed shapes or an explicitly labelled corridor reconstruction. Dashed lines connect stop areas schematically. Number ranges mark close or co-located stops.
- Reference coordinates do not prove an old platform location. Stops without established coordinates remain in the ordered list; a stop-order diagram is used when a geographic map cannot be drawn.
- The first use of number 16 is unknown; the 1970 s entries describe the corridor rather than prove that number.
- Union's historical and current bus terminals need date-specific coordinates.

Evidence notes - continued

- GTFS dates identify captured feeds, not necessarily the first or last day of a route. Open a pattern to see its exact scheduled service dates. Temporary rail replacement and special-service patterns are included when present in the source.
- Manually reconstructed versions generally contain published timetable timing points / major stops. They must not be read as complete roadside stop inventories.
