Route history

A snapshot proves what was published at that date. It does not by itself establish when a route began or ended. Reused route numbers and changing branch suffixes remain separate dated records.

- **1970-09-08**

  GO's first Lakeshore West feeder connected Oakville and Hamilton via Burlington. [S1]

- **2006-12-30**

  The original table documents Hamilton feeders and early route-18 trip series through to Union. [S2]

- **2013-04-06**

  Routes 15 and 18 are explicitly identified in the Lakeshore West booklet. [S3]

- **2021-09-07**

  Weekday 18K extended the Hamilton corridor to Brock University via Niagara communities. [S4] [S5]

- **2024-04-27**

  Brock branch 18K was renumbered 11. [S6]

Reading the maps

- Original GO feed: all scheduled stops are retained in their source order, including no-pickup and no-drop-off restrictions. The exact service dates are printed with the pattern.
- Historical reconstruction: the list generally contains published timing points or major stops. It is complete for that documented reconstruction, and may omit intermediate roadside stops.
- Solid lines use supplied feed shapes or an explicitly labelled corridor reconstruction. Dashed lines connect stop areas schematically. Number ranges mark close or co-located stops.
- Reference coordinates do not prove an old platform location. Stops without established coordinates remain in the ordered list; a stop-order diagram is used when a geographic map cannot be drawn.
- The 1970 table code 1 is not evidence that the bus was then numbered 18.
- Temporary construction variants are not all captured by these selected documents.

Evidence notes - continued

- GTFS dates identify captured feeds, not necessarily the first or last day of a route. Open a pattern to see its exact scheduled service dates. Temporary rail replacement and special-service patterns are included when present in the source.
- Manually reconstructed versions generally contain published timetable timing points / major stops. They must not be read as complete roadside stop inventories.
