22 Milton / Oakville; formerly Hamilton / Meadowvale Business Park

Two unrelated uses are documented: a Hamilton-Meadowvale commuter bus in 2009 and the Milton-Oakville service introduced in 2024 from 21A.

documented patterns	evidence years	listed stop occurrences

Illustrated pattern: 22 | 22 - Milton Carpool | Scheduled 22 Oct 2026 - 27 Nov 2026; feed captured 23 Oct 2026

A dated documentary atlas. Every pattern has its own numbered map and complete documented stop list. Reconstructed major-stop lists and full scheduled GTFS stop lists are identified separately.

Route history

A snapshot proves what was published at that date. It does not by itself establish when a route began or ended. Reused route numbers and changing branch suffixes remain separate dated records.

2009-01-03

Route 22 links Hamilton GO with Meadowvale Business Park via Aldershot and Burlington's Dundas / Highway 407 lot, one weekday trip each way. [S1]

2024-04-27

Number 22 was introduced for the Milton-Oakville corridor formerly 21A. [S2] [S3]

2024-04-29

The new timetable's first weekday lists seven trips each way, generally two-hourly outside the morning. [S3]

Reading the maps

- Original GO feed: all scheduled stops are retained in their source order, including no-pickup and no-drop-off restrictions. The exact service dates are printed with the pattern.
- Historical reconstruction: the list generally contains published timing points or major stops. It is complete for that documented reconstruction, and may omit intermediate roadside stops.
- Solid lines use supplied feed shapes or an explicitly labelled corridor reconstruction. Dashed lines connect stop areas schematically. Number ranges mark close or co-located stops.
- Reference coordinates do not prove an old platform location. Stops without established coordinates remain in the ordered list; a stop-order diagram is used when a geographic map cannot be drawn.
- The old Hamilton-Meadowvale route's introduction and withdrawal dates are unknown.
- Numerical reuse is not evidence of continuous service.
- The later extension to Regional Road 25 / Highway 401 needs a contemporary date.
- GTFS dates identify captured feeds, not necessarily the first or last day of a route. Open a pattern to see its exact scheduled service dates. Temporary rail replacement and special-service patterns are included when present in the source.
- Manually reconstructed versions generally contain published timetable timing points / major stops. They must not be read as complete roadside stop inventories.

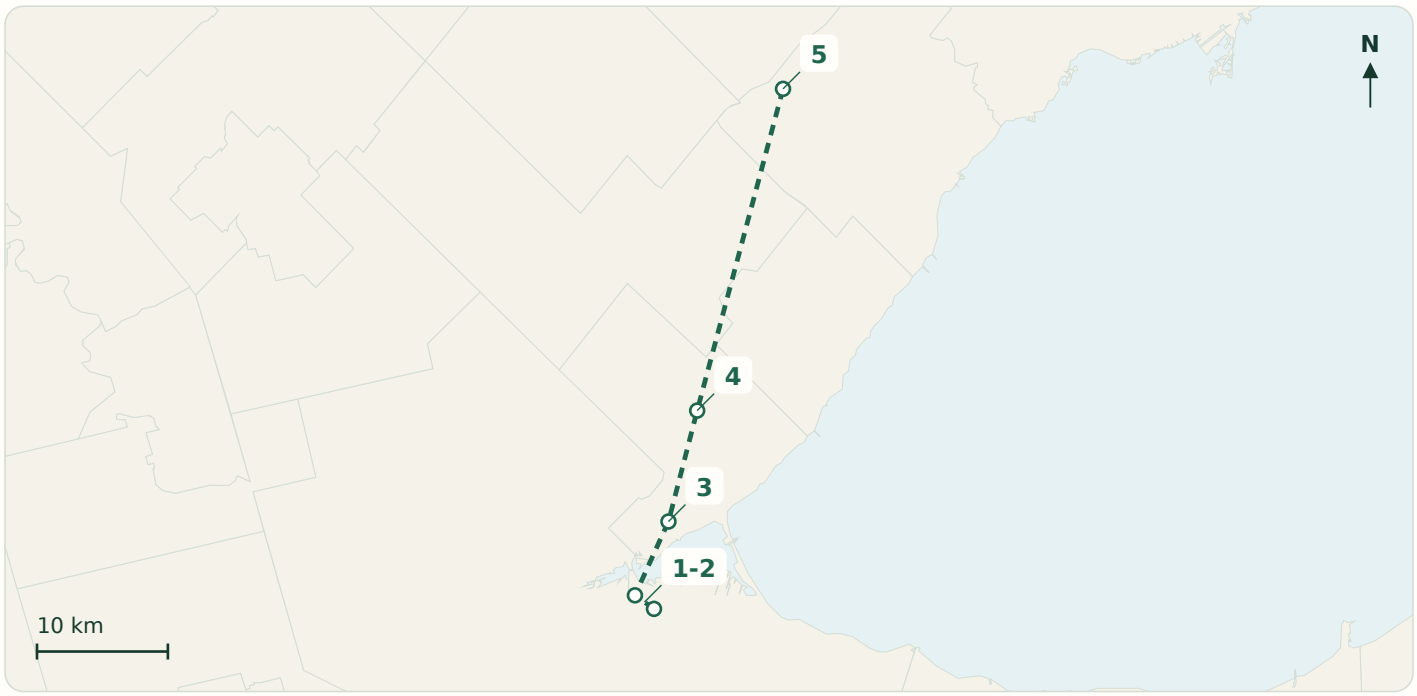

HISTORICAL RECONSTRUCTION | PATTERN 01 OF 4

22 | Earlier route 22: Hamilton-Meadowvale

Documented: 2009-01-03 | Direction: Eastbound

DOCUMENTED MAJOR STOPS / TIMING POINTS 5 stops

Sources: [S1]

Dashed line: schematic stop connections, not a street-by-street alignment. Stop areas do not establish exact historical platforms.

Selected published timepoints or named stops, not an exhaustive curb-stop list. Connectors are schematic and do not establish the roads taken. Reverse service uses Hamilton Main / Longwood. The archive filename incorrectly labels this document Milton-Oakville.

Ordered stops
