Route history

A snapshot proves what was published at that date. It does not by itself establish when a route began or ended. Reused route numbers and changing branch suffixes remain separate dated records.

- **2009-10-31**

  GO began Waterloo / Kitchener / Cambridge service to Square One with a Milton train-connection branch. [S1] [S2]

- **2009-10-31**

  The launch table identifies route 25 and Milton-bound 25A. [S3]

- **2019-04-06**

  The published family includes 25B,25C,25D and 25F as well as 25. [S4]

- **2023-04-08**

  Seasonal weekend/holiday outlet-shopping service on 25L returned. [S5]

- **2025-04-05**

  Seasonal weekend 25K began Toronto Premium Outlets-Kipling service via Square One, Dixie and Renforth, through 24 August. [S6]

Reading the maps

- Original GO feed: all scheduled stops are retained in their source order, including no-pickup and no-drop-off restrictions. The exact service dates are printed with the pattern.
- Historical reconstruction: the list generally contains published timing points or major stops. It is complete for that documented reconstruction, and may omit intermediate roadside stops.
- Solid lines use supplied feed shapes or an explicitly labelled corridor reconstruction. Dashed lines connect stop areas schematically. Number ranges mark close or co-located stops.
- Reference coordinates do not prove an old platform location. Stops without established coordinates remain in the ordered list; a stop-order diagram is used when a geographic map cannot be drawn.
- Complete branch introduction dates remain unverified.
- Davis Centre, Charles Street and Cambridge SmartCentres are historical stop locations and should not be moved to newer terminals.

Evidence notes - continued

- Seasonal variants may be absent from autumn GTFS.
- GTFS dates identify captured feeds, not necessarily the first or last day of a route. Open a pattern to see its exact scheduled service dates. Temporary rail replacement and special-service patterns are included when present in the source.
- Manually reconstructed versions generally contain published timetable timing points / major stops. They must not be read as complete roadside stop inventories.
