29 Guelph / Mississauga

A Guelph-Highway 401-Mississauga corridor formerly reaching Cooksville, later centered on Square One and extended to Kipling.

19	2009 - 2026	271
documented patterns	evidence years	listed stop occurrences

Illustrated pattern: 29 | 29 - Kipling Bus Terminal | Scheduled 22 Oct 2026 - 27 Nov 2026; feed captured 23 Oct 2026

A dated documentary atlas. Every pattern has its own numbered map and complete documented stop list. Reconstructed major-stop lists and full scheduled GTFS stop lists are identified separately.

Contents

Use the clickable entries or PDF bookmarks to jump to a date, branch or direction. Pattern counts include separate directions, stopping patterns and boarding restrictions.

Route history

A snapshot proves what was published at that date. It does not by itself establish when a route began or ended. Reused route numbers and changing branch suffixes remain separate dated records.

- **2007-09-03**

  The federal/provincial launch release announced University of Guelph-Aberfoyle-Square One-Cooksville service for 3 September. The route 29 number is independently documented by 2008. [S1]

- **2008-04-28**

  Additional weekday trips increased the University of Guelph-Cooksville route toward hourly service. [S2]

- **2009-09-05**

  The original table retains Cooksville GO as the Mississauga endpoint. [S3]

- **2019-01-05**

  The table runs Guelph Central-University-Aberfoyle-Square One with Regional Road 25 and Transitway timepoints. [S4]

- **2021-09-04**

  Route 29 extended to Renforth/Kipling; a university-Square One Friday/Sunday express pilot was announced. [S5]

- **2024-08-31**

  Branch 29A added an express University of Guelph-Square One connection. [S6]

Reading the maps

- Original GO feed: all scheduled stops are retained in their source order, including no-pickup and no-drop-off restrictions. The exact service dates are printed with the pattern.
- Historical reconstruction: the list generally contains published timing points or major stops. It is complete for that documented reconstruction, and may omit intermediate roadside stops.
- Solid lines use supplied feed shapes or an explicitly labelled corridor reconstruction. Dashed lines connect stop areas schematically. Number ranges mark close or co-located stops.

Evidence notes - continued

- Reference coordinates do not prove an old platform location. Stops without established coordinates remain in the ordered list; a stop-order diagram is used when a geographic map cannot be drawn.
- The launch release describes the corridor without a route number; the number 29 is independently documented by the April 2008 service-change notice.
- Dates when Cooksville was removed and Guelph Central added need intervening timetables.
- GTFS dates identify captured feeds, not necessarily the first or last day of a route. Open a pattern to see its exact scheduled service dates. Temporary rail replacement and special-service patterns are included when present in the source.
- Manually reconstructed versions generally contain published timetable timing points / major stops. They must not be read as complete roadside stop inventories.

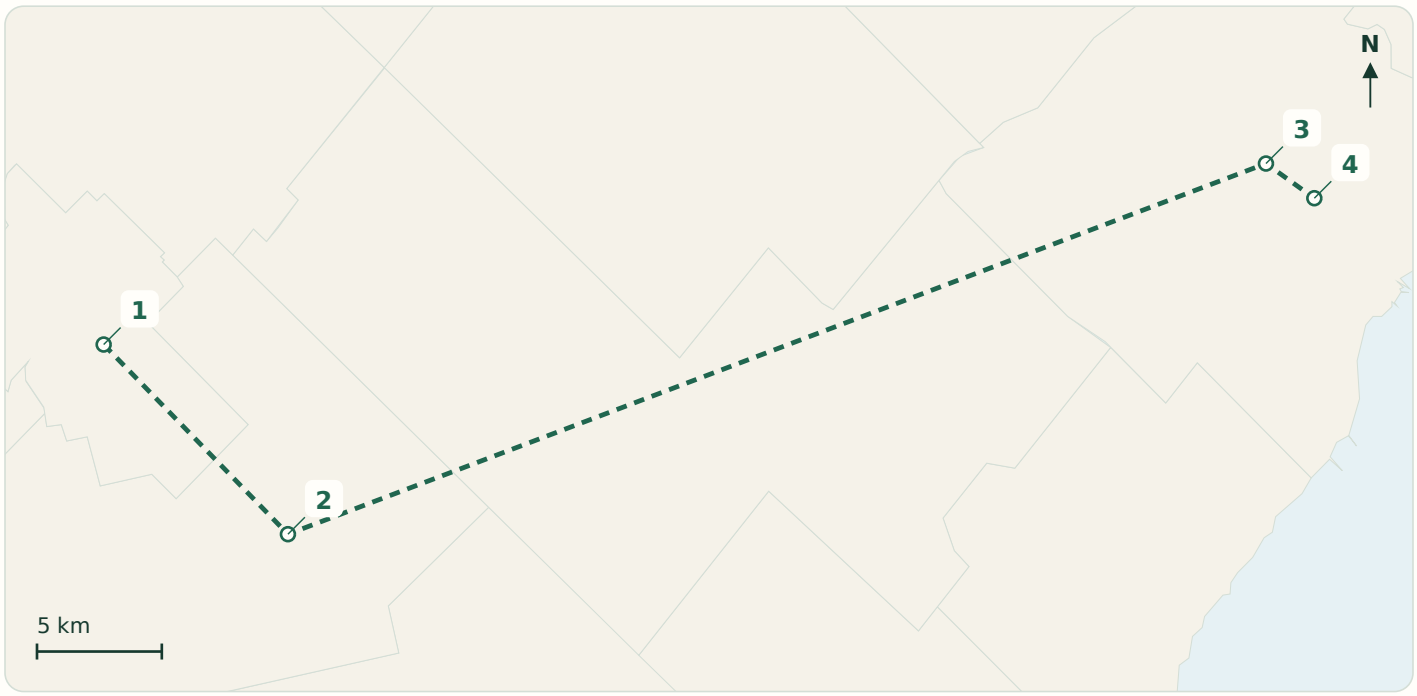

HISTORICAL RECONSTRUCTION | PATTERN 01 OF 19

29 | University of Guelph-Cooksville

Documented: 2009-09-05 | Direction: Eastbound

DOCUMENTED MAJOR STOPS / TIMING POINTS 4 stops

Sources: [S3]

Dashed line: schematic stop connections, not a street-by-street alignment. Stop areas do not establish exact historical platforms.

Selected published timepoints or named stops, not an exhaustive curb-stop list. Connectors are schematic and do not establish the roads taken.
