30 Kitchener / Vaughan; formerly Kitchener / Bramalea

A Kitchener-Bramalea train-connection express that gained all-day/weekend service and Waterloo university connections.

26	2013 - 2026	162
documented patterns	evidence years	listed stop occurrences

Illustrated pattern: 30 | 30 - Hwy. 407 Bus Term | Scheduled 22 Oct 2026 - 27 Nov 2026; feed captured 23 Oct 2026

A dated documentary atlas. Every pattern has its own numbered map and complete documented stop list. Reconstructed major-stop lists and full scheduled GTFS stop lists are identified separately.

Contents

Use the clickable entries or PDF bookmarks to jump to a date, branch or direction. Pattern counts include separate directions, stopping patterns and boarding restrictions.

Route history

A snapshot proves what was published at that date. It does not by itself establish when a route began or ended. Reused route numbers and changing branch suffixes remain separate dated records.

- **by 2013-04-06**

  Route 30 already appears with one weekday morning eastbound trip and three westbound train meets. [S1]

- **2016-09-06**

  Weekday counter-peak and off-peak service was added. [S2]

- **2016-09-26**

  Ontario described expanded all-day Kitchener-Bramalea express service alongside Highway 401 bus-shoulder improvements. [S3]

- **2021-09-04**

  The route extended from Kitchener GO to Waterloo and Laurier universities. [S4]

- **2023-04-08**

  Weekend service was added for connections to new weekend Kitchener-line trains. [S5]

Reading the maps

- Original GO feed: all scheduled stops are retained in their source order, including no-pickup and no-drop-off restrictions. The exact service dates are printed with the pattern.
- Historical reconstruction: the list generally contains published timing points or major stops. It is complete for that documented reconstruction, and may omit intermediate roadside stops.
- Solid lines use supplied feed shapes or an explicitly labelled corridor reconstruction. Dashed lines connect stop areas schematically. Number ranges mark close or co-located stops.
- Reference coordinates do not prove an old platform location. Stops without established coordinates remain in the ordered list; a stop-order diagram is used when a geographic map cannot be drawn.
- Route 30 existed by 2013; the 2016 expansion was not its launch.
- Initial introduction and later Highway 407-terminal extension dates need primary notices.
- Kitchener GO and Charles Street terminal are distinct places.

Evidence notes - continued

- GTFS dates identify captured feeds, not necessarily the first or last day of a route. Open a pattern to see its exact scheduled service dates. Temporary rail replacement and special-service patterns are included when present in the source.
- Manually reconstructed versions generally contain published timetable timing points / major stops. They must not be read as complete roadside stop inventories.

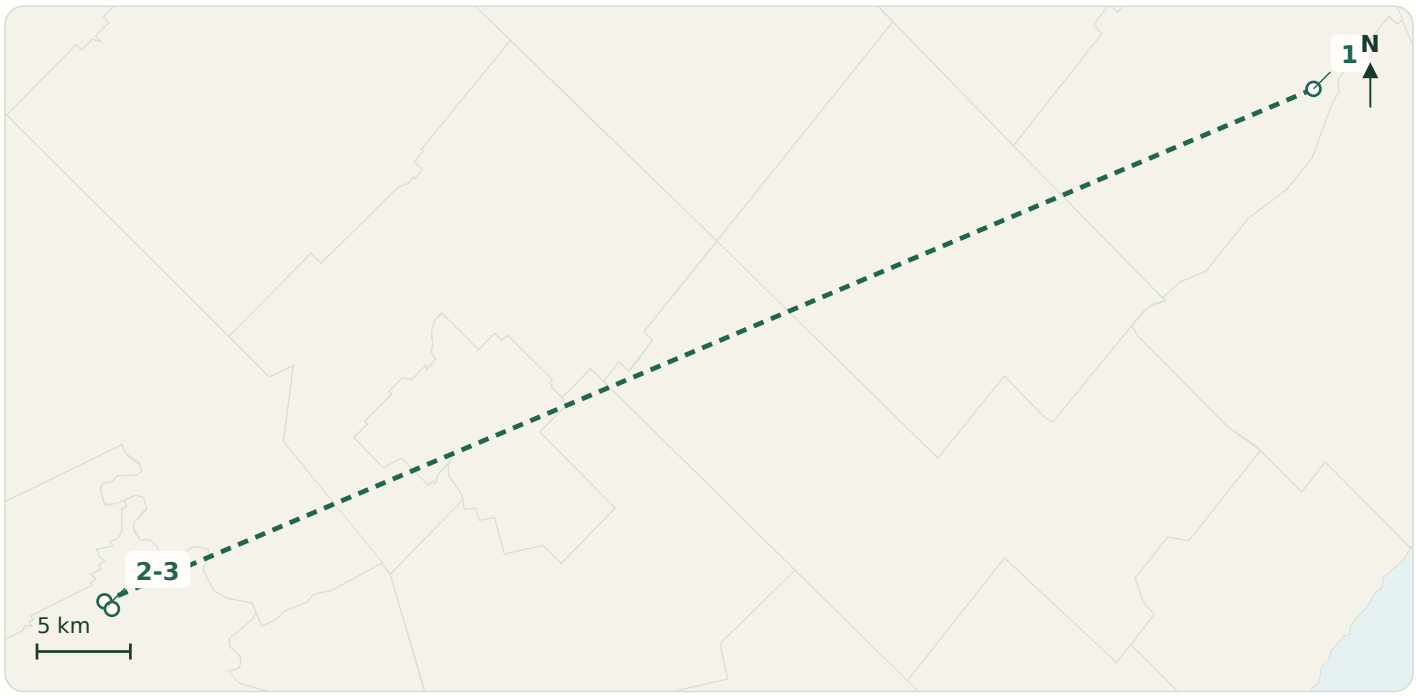

HISTORICAL RECONSTRUCTION | PATTERN 01 OF 26

30 | Early Bramalea-Kitchener train connection

Documented: 2013-04-06 | Direction: Westbound

DOCUMENTED MAJOR STOPS / TIMING POINTS 3 stops

Sources: [S1]

Dashed line: schematic stop connections, not a street-by-street alignment. Stop areas do not establish exact historical platforms.

Selected published timepoints or named stops, not an exhaustive curb-stop list. Connectors are schematic and do not establish the roads taken. Visually verified westbound sequence: Bramalea 15:00, Kitchener GO16:10, Charles Street 16:15. The morning eastbound trip starts at Kitchener GO; do not infer a Charles Street pickup.
