33 Guelph / North York

A Guelph-Georgetown-Brampton-North York local corridor, historically terminating at York Mills and sharing portions with 31.

69	2007 - 2026	2,106
documented patterns	evidence years	listed stop occurrences

Illustrated pattern: 33 | 33 - U of Guelph | Scheduled 22 Oct 2026 - 27 Nov 2026; feed captured 23 Oct 2026

A dated documentary atlas. Every pattern has its own numbered map and complete documented stop list. Reconstructed major-stop lists and full scheduled GTFS stop lists are identified separately.

Contents

Use the clickable entries or PDF bookmarks to jump to a date, branch or direction. Pattern counts include separate directions, stopping patterns and boarding restrictions.

Route history

A snapshot proves what was published at that date. It does not by itself establish when a route began or ended. Reused route numbers and changing branch suffixes remain separate dated records.

- **1976-02-15**

  GO introduced a Georgetown-Brampton-Malton-York Mills corridor, a predecessor of later numbered routes. [S1]

- **2007-09-01**

  Route 33 trip series link Guelph and Georgetown with Yorkdale/York Mills. [S2]

- **2013-04-06**

  The family includes Guelph Central, the University of Guelph and Acton GO. [S3]

- **2015-09-05**

  Hourly weekday off-peak service was added. [S4]

- **2023-04-08**

  Weekend service was added for train connections at Mount Pleasant. [S5]

Reading the maps

- Original GO feed: all scheduled stops are retained in their source order, including no-pickup and no-drop-off restrictions. The exact service dates are printed with the pattern.
- Historical reconstruction: the list generally contains published timing points or major stops. It is complete for that documented reconstruction, and may omit intermediate roadside stops.
- Solid lines use supplied feed shapes or an explicitly labelled corridor reconstruction. Dashed lines connect stop areas schematically. Number ranges mark close or co-located stops.
- Reference coordinates do not prove an old platform location. Stops without established coordinates remain in the ordered list; a stop-order diagram is used when a geographic map cannot be drawn.
- The 1976 predecessor does not prove the 33 number was then used.
- Guelph/Acton terminal-relocation dates need primary notices.
- Weekend short turns should be taken from dated GTFS, not inferred from the full weekday route.

Evidence notes - continued

- GTFS dates identify captured feeds, not necessarily the first or last day of a route. Open a pattern to see its exact scheduled service dates. Temporary rail replacement and special-service patterns are included when present in the source.
- Manually reconstructed versions generally contain published timetable timing points / major stops. They must not be read as complete roadside stop inventories.

HISTORICAL RECONSTRUCTION | PATTERN 01 OF 69

33 | Guelph-York Mills via Georgetown

Documented: 2007-09-01 | Direction: Eastbound

DOCUMENTED MAJOR STOPS / TIMING POINTS 12 stops

Sources: [S2]

Dashed line: schematic stop connections, not a street-by-street alignment. 1 stop location(s) remain unestablished; see the complete list. Stop areas do not establish exact historical platforms.

Selected published timepoints or named stops, not an exhaustive curb-stop list. Connectors are schematic and do not establish the roads taken. Major timepoints only; university extensions and short turns are separate patterns.

Ordered stops

1. Guelph Bus Terminal, Macdonell / Carden
2. Rockwood, Alma / Main
   Location not established
