35 Union Pearson Express replacement; formerly Brampton / Highway 27

The old regular 35 ran Brampton-Humber College-North York until 2015. Contemporary 35B/35C feed entries are UP Express replacement services, a separate reuse.

Illustrated pattern: 35B | 35B - Union Station UP Express | Scheduled 30 Oct 2026 - 1 Nov 2026; feed captured 23 Oct 2026

A dated documentary atlas. Every pattern has its own numbered map and complete documented stop list. Reconstructed major-stop lists and full scheduled GTFS stop lists are identified separately.

Route history

A snapshot proves what was published at that date. It does not by itself establish when a route began or ended. Reused route numbers and changing branch suffixes remain separate dated records.

2012-09-01

The Brampton table identifies 35 via Humber College toward North York. [S1]

2015-09-05

The regular Brampton/Highway 27 route 35 was discontinued. [S2]

Reading the maps

- Original GO feed: all scheduled stops are retained in their source order, including no-pickup and no-drop-off restrictions. The exact service dates are printed with the pattern.
- Historical reconstruction: the list generally contains published timing points or major stops. It is complete for that documented reconstruction, and may omit intermediate roadside stops.
- Solid lines use supplied feed shapes or an explicitly labelled corridor reconstruction. Dashed lines connect stop areas schematically. Number ranges mark close or co-located stops.
- Reference coordinates do not prove an old platform location. Stops without established coordinates remain in the ordered list; a stop-order diagram is used when a geographic map cannot be drawn.
- The old 35 introduction date is unknown.
- Modern 35B/35C patterns belong to dated GTFS; their presence does not establish a permanent conventional daily route.
- The first date of number 35's modern reuse remains unverified.
- GTFS dates identify captured feeds, not necessarily the first or last day of a route. Open a pattern to see its exact scheduled service dates. Temporary rail replacement and special-service patterns are included when present in the source.
- Manually reconstructed versions generally contain published timetable timing points / major stops. They must not be read as complete roadside stop inventories.

HISTORICAL RECONSTRUCTION | PATTERN 01 OF 3

35 | Former Brampton-Humber College-North York

Documented: 2012-09-01 | Direction: Eastbound

DOCUMENTED MAJOR STOPS / TIMING POINTS 8 stops

Dashed line: schematic stop connections, not a street-by-street alignment. Stop areas do not establish exact historical platforms.

Selected published timepoints or named stops, not an exhaustive curb-stop list. Connectors are schematic and do not establish the roads taken. This old route is unrelated to the later UP Express replacement patterns.
