41 Hamilton / Pickering; earlier Orangeville route number

The number has two unrelated eras. Before April 28, 2008, 41 identified Orangeville service, which became route 37. The new Hamilton-Pickering route 41 was created in 2021 by joining the former Highway 407 West and East services.

22	2022 - 2026	447
documented patterns	evidence years	listed stop occurrences

Illustrated pattern: 41 | 41 - Pickering GO | Scheduled 22 Oct 2026 - 27 Nov 2026; feed captured 23 Oct 2026

A dated documentary atlas. Every pattern has its own numbered map and complete documented stop list. Reconstructed major-stop lists and full scheduled GTFS stop lists are identified separately.

Contents

Use the clickable entries or PDF bookmarks to jump to a date, branch or direction. Pattern counts include separate directions, stopping patterns and boarding restrictions.

Route history

A snapshot proves what was published at that date. It does not by itself establish when a route began or ended. Reused route numbers and changing branch suffixes remain separate dated records.

- **before 2008-04-28**

  The contemporary April 2008 service notice identifies the then-existing Orangeville service as route 41. [S5]

- **2008-04-28**

  Orangeville route 41 is renumbered 37. This earlier route is geographically and historically separate from the Hamilton-Pickering route introduced in 2021. See route 37 for the continuing Orangeville family. [S5]

- **2021-02-13**

  New route 41 combines most weekday trips on routes 47 and 51. Metrolinx announces 38 weekday trips and a through ride without transferring at Highway 407 Bus Terminal. [S1]

- **by 2022-06-25**

  The original main-route pattern runs via McMaster, the western park-and-rides, Square One, Bramalea, Richmond Hill Centre, Consumers Road, Scarborough Centre and the two Scarborough campuses. It does not serve Unionville. [S2]

- **by 2023-01-07**

  41A appears as a school-oriented express pattern; an explicitly timed trip runs Square One-Bramalea-Highway 407-Consumers Road-Centennial-UTSC, bypassing Richmond Hill Centre and Scarborough Centre. [S3]

Reading the maps

- Original GO feed: all scheduled stops are retained in their source order, including no-pickup and no-drop-off restrictions. The exact service dates are printed with the pattern.
- Historical reconstruction: the list generally contains published timing points or major stops. It is complete for that documented reconstruction, and may omit intermediate roadside stops.
- Solid lines use supplied feed shapes or an explicitly labelled corridor reconstruction. Dashed lines connect stop areas schematically. Number ranges mark close or co-located stops.

Evidence notes - continued

- Reference coordinates do not prove an old platform location. Stops without established coordinates remain in the ordered list; a stop-order diagram is used when a geographic map cannot be drawn.
- The launch announcement says most weekday predecessor trips were merged, not that all route 47 service disappeared.
- Other 41A through or short patterns should be read from their dated GTFS service periods rather than generalized from this one trip.
- No original pre-renumbering Orangeville timetable has been recovered here; later route 37 stops are not silently assigned to old 41.
- GTFS dates identify captured feeds, not necessarily the first or last day of a route. Open a pattern to see its exact scheduled service dates. Temporary rail replacement and special-service patterns are included when present in the source.
- Manually reconstructed versions generally contain published timetable timing points / major stops. They must not be read as complete roadside stop inventories.
