42 Bolton (renumbered 38 in 2008)

The earlier Bolton GO bus number, linked to York Mills through Yorkdale, Etobicoke North, Woodbridge, Kleinburg and Nobleton. The contemporary 2008 notice explicitly establishes the 42-to-38 renumbering; this is stronger evidence than the older Table 42 label alone.

1	2004	10
documented patterns	evidence years	listed stop occurrences

Illustrated pattern: 42 (Bolton) | York Mills-Bolton weekday route | Documented 2004-09-04

A dated documentary atlas. Every pattern has its own numbered map and complete documented stop list. Reconstructed major-stop lists and full scheduled GTFS stop lists are identified separately.

Contents

Use the clickable entries or PDF bookmarks to jump to a date, branch or direction. Pattern counts include separate directions, stopping patterns and boarding restrictions.

Route history

A snapshot proves what was published at that date. It does not by itself establish when a route began or ended. Reused route numbers and changing branch suffixes remain separate dated records.

- **by 2003-06-28**

  Original Table 42 documents the weekday York Mills-Yorkdale-Etobicoke North-Bolton service through Woodbridge, Kleinburg and Nobleton. Union Station times are connecting trains, not a through bus to Bolton. [S1]

- **by 2004-09-04**

  The original PDF shows two southbound morning and two northbound afternoon weekday bus trips, with rail connections at Etobicoke North. The archive filename says February 2008, but the timetable itself is dated September 4, 2004. [S2]

- **2008-04-28**

  GO renumbers Bolton route 42 as route 38. The continuing corridor belongs to the route 38 history. [S3]

Reading the maps

- Original GO feed: all scheduled stops are retained in their source order, including no-pickup and no-drop-off restrictions. The exact service dates are printed with the pattern.
- Historical reconstruction: the list generally contains published timing points or major stops. It is complete for that documented reconstruction, and may omit intermediate roadside stops.
- Solid lines use supplied feed shapes or an explicitly labelled corridor reconstruction. Dashed lines connect stop areas schematically. Number ranges mark close or co-located stops.
- Reference coordinates do not prove an old platform location. Stops without established coordinates remain in the ordered list; a stop-order diagram is used when a geographic map cannot be drawn.
- The corridor's earlier launch and detailed pre-2003 evolution are not established in these originals.
- See route 38 for changes after the April 28, 2008 renumbering; the old number does not imply a separate contemporary service.
- Manually reconstructed versions generally contain published timetable timing points / major stops. They must not be read as complete roadside stop inventories.

HISTORICAL RECONSTRUCTION | PATTERN 01 OF 1

42 (Bolton) | York Mills-Bolton weekday route

Documented: 2004-09-04 | Direction: northbound

DOCUMENTED MAJOR STOPS / TIMING POINTS 10 stops

Sources: [S2]

Dashed line: schematic stop connections, not a street-by-street alignment. Stop areas do not establish exact historical platforms.

Ordered major bus timing points from the original. Excludes Union Station, which is a train connection shown in the shared table. Route identity is corroborated by the April 2008 renumbering notice.

Ordered stops

1. York Mills GO Bus Terminal
2. Yorkdale GO Bus Terminal
3. Etobicoke North GO
4. Hwy. 27 @ Humber College Blvd.
5. Rutherford Rd. @ Vaughan Mills Rd.
6. Islington Ave. @ Nashville Rd. - Kleinburg
7. King Rd. @ Hwy. 27 - Nobleton
8. King St. @ Humber Lea Rd. - Bolton
9. Queen St. @ Queensgate Blvd. - Bolton
10. Albion-Vaughan Rd. @ Industrial Rd. - Bolton
