# 48 Guelph / Highway 407 (formerly Meadowvale / York University)

A Meadowvale-Bramalea-York corridor expanded west to the University of Guelph through Aberfoyle. It retained direct student expresses and short Meadowvale workings alongside the stopping route.

| 28 | 2006 - 2026 | 454 |
|---|---|---|
| documented patterns | evidence years | listed stop occurrences |

Illustrated pattern: 48 | 48 - Hwy. 407 Bus Term | Scheduled 22 Oct 2026 - 27 Nov 2026; feed captured 23 Oct 2026

A dated documentary atlas. Every pattern has its own numbered map and complete documented stop list. Reconstructed major-stop lists and full scheduled GTFS stop lists are identified separately.

# Contents

Use the clickable entries or PDF bookmarks to jump to a date, branch or direction. Pattern counts include separate directions, stopping patterns and boarding restrictions.

# Route history

A snapshot proves what was published at that date. It does not by itself establish when a route began or ended. Reused route numbers and changing branch suffixes remain separate dated records.

- **by 2006-12-30**

  Table 46 shows Meadowvale-Bramalea-York and a direct Meadowvale-York predecessor express. [S1]

- **2007-09**

  Government releases document the Guelph-Aberfoyle-Meadowvale expansion. The August announcement gave September 3, while the November retrospective says service began September 4. [S2] [S3]

- **by 2011-12-31**

  Main 48 runs Guelph-Aberfoyle-Meadowvale-Hurontario/407-Bramalea-Keele-York. 48A bypasses Hurontario and Bramalea, while 48B is the stopping Meadowvale short route. [S4]

- **by 2018-09-01**

  Main 48 and 48B call at Highway 407 terminal before York, while 48A bypasses it. 48F is a limited Guelph-Bramalea-Highway 407-Keele-York express. [S5]

- **2019-01-05**

  GO leaves York campus and the route's eastern end becomes Highway 407 Bus Terminal. [S6] [S7]

## Reading the maps

- Original GO feed: all scheduled stops are retained in their source order, including no-pickup and no-drop-off restrictions. The exact service dates are printed with the pattern.
- Historical reconstruction: the list generally contains published timing points or major stops. It is complete for that documented reconstruction, and may omit intermediate roadside stops.
- Solid lines use supplied feed shapes or an explicitly labelled corridor reconstruction. Dashed lines connect stop areas schematically. Number ranges mark close or co-located stops.
- Reference coordinates do not prove an old platform location. Stops without established coordinates remain in the ordered list; a stop-order diagram is used when a geographic map cannot be drawn.

# Evidence notes - continued

- Official 2007 announcements differ by one day on Guelph's start; this dataset states September 2007 rather than silently choosing one.
- The exact launch dates of the original Meadowvale service, 48A, 48B and 48F were not located.
- GTFS dates identify captured feeds, not necessarily the first or last day of a route. Open a pattern to see its exact scheduled service dates. Temporary rail replacement and special-service patterns are included when present in the source.
- Manually reconstructed versions generally contain published timetable timing points / major stops. They must not be read as complete roadside stop inventories.

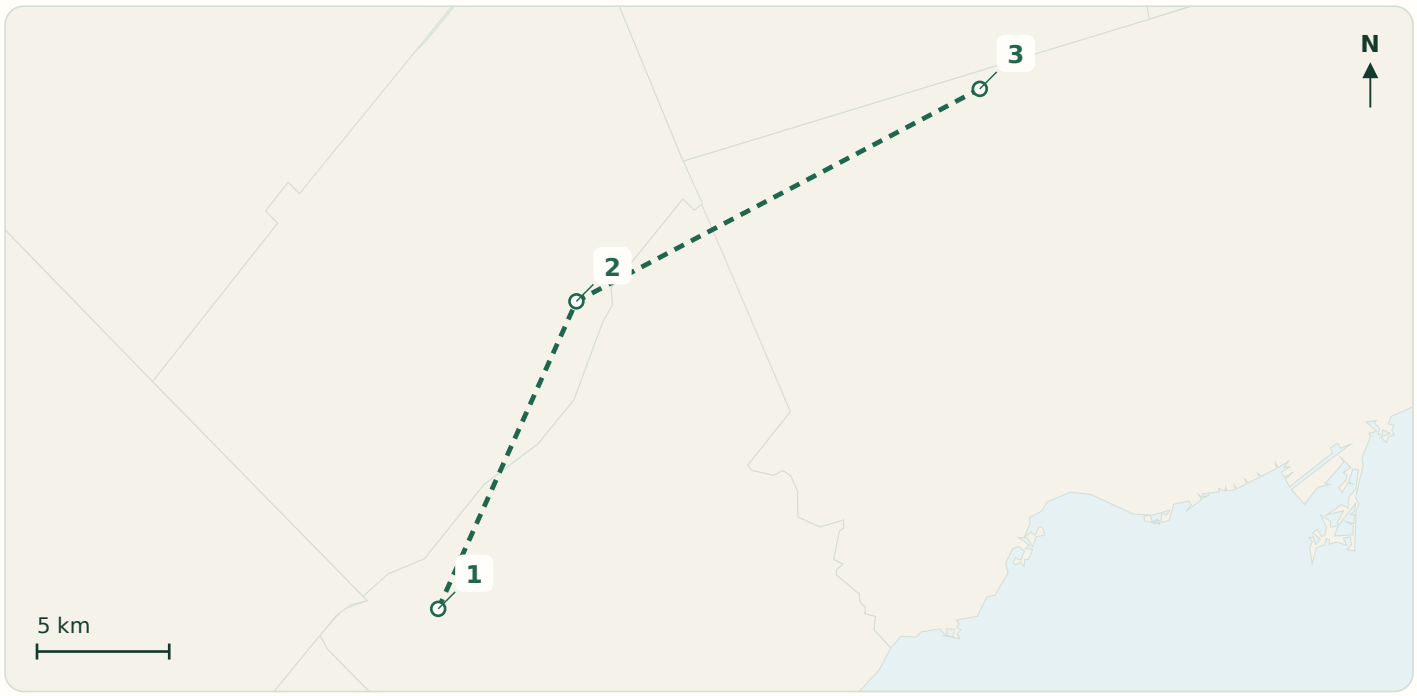

HISTORICAL RECONSTRUCTION | PATTERN 01 OF 28

# pre-48 | Meadowvale-York predecessor

Documented: 2006-12-30 | Direction: eastbound

**DOCUMENTED MAJOR STOPS / TIMING POINTS** 3 stops
