54 Mount Joy / York University; later Mount Joy / Highway 407

The Markham arm of the Highway 407 network connected Mount Joy, Markham, Centennial and Unionville with Langstaff or Richmond Hill Centre and York University. Expresses served different portions of the Markham corridor. It later terminated at Highway 407 and ended in January 2026.

24	2008 - 2023	260
documented patterns	evidence years	listed stop occurrences

Illustrated pattern: 54 | 54 - York University Bus Loop | Scheduled 4 Jan 2016 - 5 Jan 2016; feed captured 11 Jan 2016

A dated documentary atlas. Every pattern has its own numbered map and complete documented stop list. Reconstructed major-stop lists and full scheduled GTFS stop lists are identified separately.

Contents

Use the clickable entries or PDF bookmarks to jump to a date, branch or direction. Pattern counts include separate directions, stopping patterns and boarding restrictions.

Route history

A snapshot proves what was published at that date. It does not by itself establish when a route began or ended. Reused route numbers and changing branch suffixes remain separate dated records.

- **2000-09**

  The original Highway 407 launch reaches Unionville through York University, a predecessor corridor of 54. [S1]

- **by 2008-11-01**

  The timetable explicitly identifies 54 Mount Joy-Markham-Centennial-Unionville-Langstaff-York; 54A starts at Unionville and 54B at Centennial, both bypassing Langstaff. [S2]

- **by 2011-12-31**

  Richmond Hill Centre replaces Langstaff and the Keele stop is added. 54C connects Mount Joy and Markham directly with Keele and York, bypassing Centennial, Unionville and Richmond Hill Centre. [S3]

- **2019-01-05**

  GO's York University service ends. The main 54 and its express variants terminate at Highway 407 Bus Terminal. [S4] [S5]

- **2026-01-03**

  Route 54 is discontinued as part of the January service changes, with replacement services described in Metrolinx's announcement and the revised route 40 timetable. [S6] [S7]

Reading the maps

- Original GO feed: all scheduled stops are retained in their source order, including no-pickup and no-drop-off restrictions. The exact service dates are printed with the pattern.
- Historical reconstruction: the list generally contains published timing points or major stops. It is complete for that documented reconstruction, and may omit intermediate roadside stops.
- Solid lines use supplied feed shapes or an explicitly labelled corridor reconstruction. Dashed lines connect stop areas schematically. Number ranges mark close or co-located stops.
- Reference coordinates do not prove an old platform location. Stops without established coordinates remain in the ordered list; a stop-order diagram is used when a geographic map cannot be drawn.

Evidence notes - continued

- The exact extension dates from Unionville into Markham and Mount Joy have not been established.
- 54A/B/C introduction and withdrawal dates are represented by original timetable snapshots; later full-stop patterns come from dated GTFS.
- GTFS dates identify captured feeds, not necessarily the first or last day of a route. Open a pattern to see its exact scheduled service dates. Temporary rail replacement and special-service patterns are included when present in the source.
- Manually reconstructed versions generally contain published timetable timing points / major stops. They must not be read as complete roadside stop inventories.

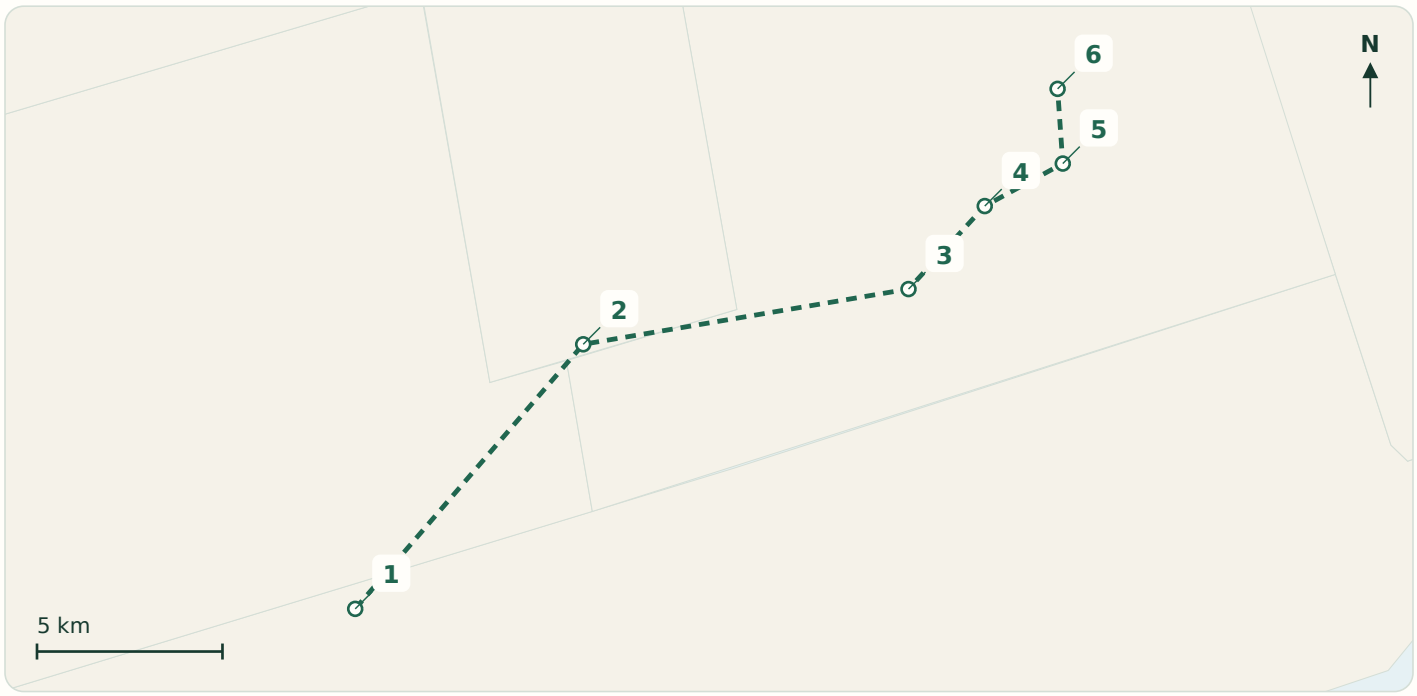

HISTORICAL RECONSTRUCTION | PATTERN 01 OF 24

54 | York-Mount Joy via Langstaff

Documented: 2008-11-01 | Direction: eastbound

DOCUMENTED MAJOR STOPS / TIMING POINTS 6 stops

Sources: [S2]

Dashed line: schematic stop connections, not a street-by-street alignment. Stop areas do not establish exact historical platforms.

These are the timetable's ordered major timing points; intermediate roadside stops are not asserted.
