61 Richmond Hill

Bus complement to the Richmond Hill rail corridor. Earlier buses ended at Richmond Hill GO; later service reached Gormley and Bloomington. The 2005 table also contains shorter Leslie Street services.

21	2005 - 2026	334
documented patterns	evidence years	listed stop occurrences

Illustrated pattern: 61 | 61 - Bloomington GO | Scheduled 22 Oct 2026 - 27 Nov 2026; feed captured 23 Oct 2026

A dated documentary atlas. Every pattern has its own numbered map and complete documented stop list. Reconstructed major-stop lists and full scheduled GTFS stop lists are identified separately.

Route history

A snapshot proves what was published at that date. It does not by itself establish when a route began or ended. Reused route numbers and changing branch suffixes remain separate dated records.

- **2005-11-21**

  The timetable documents Richmond Hill-Langstaff-Union buses, Richmond Hill-Union expresses, and Leslie/Old Cummer-Leslie/401-Union trips. [S1]

- **2019-01-05**

  The route family had reached Gormley; the timetable displays branches 61 and 61A through 61F. [S2]

- **2020-09-05**

  Branches 61A, 61B, 61C and 61F were withdrawn in the September restructuring. [S3]

- **2021-06-28**

  Bloomington GO opened with weekday route 61 bus service. [S4]

- **2023-01-07**

  The timetable shows the Bloomington-Gormley-Richmond Hill-Langstaff-Union corridor and the Richmond Hill short service. [S5]

Reading the maps

- Original GO feed: all scheduled stops are retained in their source order, including no-pickup and no-drop-off restrictions. The exact service dates are printed with the pattern.
- Historical reconstruction: the list generally contains published timing points or major stops. It is complete for that documented reconstruction, and may omit intermediate roadside stops.
- Solid lines use supplied feed shapes or an explicitly labelled corridor reconstruction. Dashed lines connect stop areas schematically. Number ranges mark close or co-located stops.
- Reference coordinates do not prove an old platform location. Stops without established coordinates remain in the ordered list; a stop-order diagram is used when a geographic map cannot be drawn.
- Detailed Gormley-era lettered patterns should be read from the original 2019 timetable; a modern letter must not be assigned retroactively to a 2005 trip.

Evidence notes - continued

- These are documented dated snapshots. Changes between snapshots, temporary diversions and every historical local stop have not all been recovered.
- GTFS dates identify captured feeds, not necessarily the first or last day of a route. Open a pattern to see its exact scheduled service dates. Temporary rail replacement and special-service patterns are included when present in the source.
- Manually reconstructed versions generally contain published timetable timing points / major stops. They must not be read as complete roadside stop inventories.

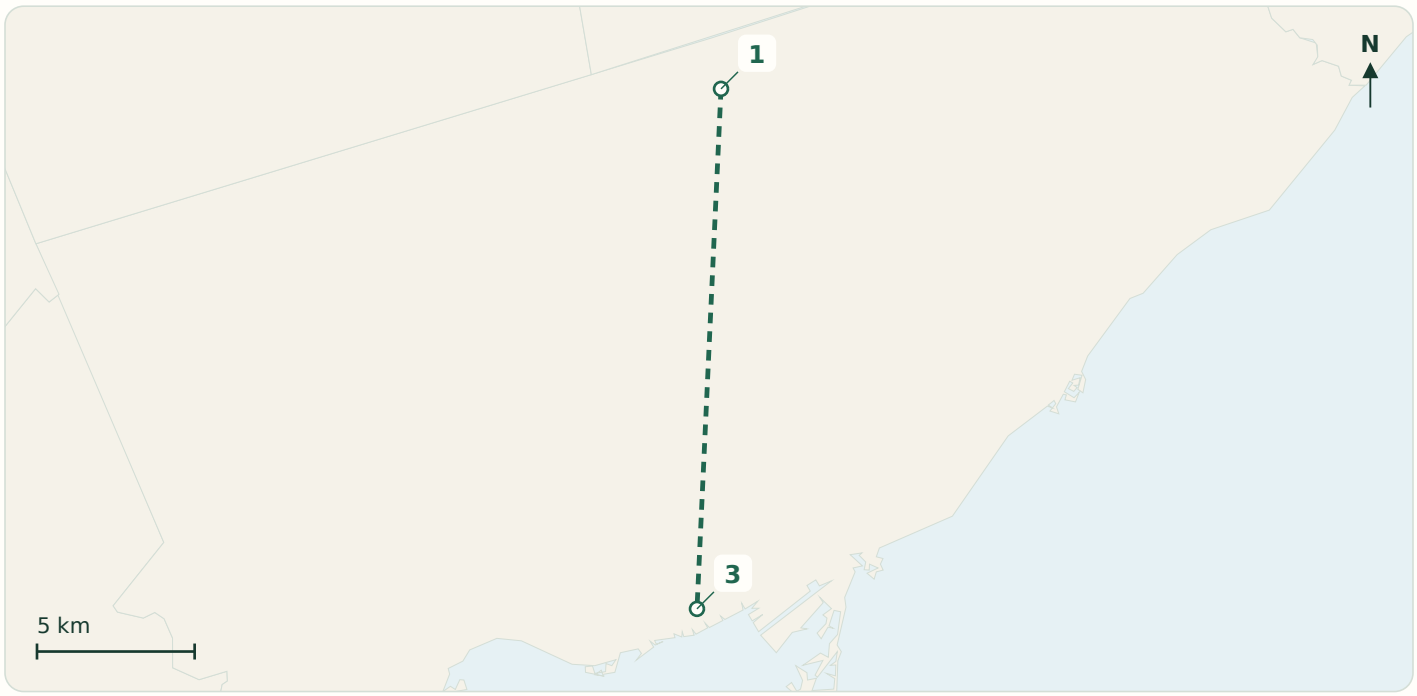

HISTORICAL RECONSTRUCTION | PATTERN 01 OF 21
