62 Newmarket B / Yonge Street

The former Newmarket-Aurora-Richmond Hill-North York bus along Yonge Street. Older timetables call this Table 62 and Newmarket B; the final contemporary notice explicitly calls it route 62.

Illustrated pattern: 62 | Newmarket B via Langstaff GO north lot | Documented 2004-10-30

A dated documentary atlas. Every pattern has its own numbered map and complete documented stop list. Reconstructed major-stop lists and full scheduled GTFS stop lists are identified separately.

Route history

A snapshot proves what was published at that date. It does not by itself establish when a route began or ended. Reused route numbers and changing branch suffixes remain separate dated records.

- **1970**

  The Newmarket B corridor was among the early GO bus services; this does not establish that number 62 was publicly used in 1970. [S1]

- **2004-10-30**

  Table 62 documents Newmarket Bus Terminal to York Mills, with some trips entering the north lot at Langstaff GO. [S2]

- **2006-10-28**

  The documented Yonge Street service still ran to York Mills, via the Finch and Sheppard areas. [S3]

- **2010-06-25**

  Last operating day of route 62. Viva Blue A began June 28 as its replacement between Newmarket and Finch. [S4]

Reading the maps

- Original GO feed: all scheduled stops are retained in their source order, including no-pickup and no-drop-off restrictions. The exact service dates are printed with the pattern.
- Historical reconstruction: the list generally contains published timing points or major stops. It is complete for that documented reconstruction, and may omit intermediate roadside stops.
- Solid lines use supplied feed shapes or an explicitly labelled corridor reconstruction. Dashed lines connect stop areas schematically. Number ranges mark close or co-located stops.
- Reference coordinates do not prove an old platform location. Stops without established coordinates remain in the ordered list; a stop-order diagram is used when a geographic map cannot be drawn.
- The 2004 table refers to Table 63 for Newmarket B express service. That reference is not evidence that the later King City route 63 was the former Yonge C route.
- Intermediate Yonge Street stops are not all listed in these timing-point tables.
- These are documented dated snapshots. Changes between snapshots, temporary diversions and every historical local stop have not all been recovered.

Evidence notes - continued

- Manually reconstructed versions generally contain published timetable timing points / major stops. They must not be read as complete roadside stop inventories.
