65 Newmarket-Toronto / Barrie corridor

Union-bound and rail-connecting services in the Barrie corridor. Route 65 has repeatedly changed as train service expanded; suffixes describe a dated pattern rather than a permanent route identity.

71	2009 - 2026	980
documented patterns	evidence years	listed stop occurrences

Illustrated pattern: 65 | 65 - East Gwillimbury GO | Scheduled 22 Oct 2026 - 27 Nov 2026; feed captured 23 Oct 2026

A dated documentary atlas. Every pattern has its own numbered map and complete documented stop list. Reconstructed major-stop lists and full scheduled GTFS stop lists are identified separately.

Contents

Use the clickable entries or PDF bookmarks to jump to a date, branch or direction. Pattern counts include separate directions, stopping patterns and boarding restrictions.

Route history

A snapshot proves what was published at that date. It does not by itself establish when a route began or ended. Reused route numbers and changing branch suffixes remain separate dated records.

- **2009-06-27**

  The timetable documents East Gwillimbury/Newmarket-Aurora-Highway 404-Union buses, with other Barrie-corridor bus connections in the same table. [S1]

- **2012-09**

  Additional weekday and weekend Union trips were introduced; the former 69 service between Union and East Gwillimbury became route 65. [S2]

- **2018-01-02**

  Expanded Barrie train service replaced much daytime bus service; the local Newmarket-Aurora portion gained route number 69. [S3]

- **2023-01-07**

  The timetable retains several Union branches serving East Gwillimbury, Newmarket and Aurora alongside routes 63 and 68. [S4]

- **2024-04-27**

  The former King City route 63 appears as 65A. [S5]

Reading the maps

- Original GO feed: all scheduled stops are retained in their source order, including no-pickup and no-drop-off restrictions. The exact service dates are printed with the pattern.
- Historical reconstruction: the list generally contains published timing points or major stops. It is complete for that documented reconstruction, and may omit intermediate roadside stops.
- Solid lines use supplied feed shapes or an explicitly labelled corridor reconstruction. Dashed lines connect stop areas schematically. Number ranges mark close or co-located stops.
- Reference coordinates do not prove an old platform location. Stops without established coordinates remain in the ordered list; a stop-order diagram is used when a geographic map cannot be drawn.
- Older Barrie-area trips printed in Table 65 without clear public route/suffix labels have not been assigned invented branches.

Evidence notes - continued

- Use the separate 2016, 2022, 2023 and 2026 GTFS snapshots for their full stop and shape variants.
- These are documented dated snapshots. Changes between snapshots, temporary diversions and every historical local stop have not all been recovered.
- GTFS dates identify captured feeds, not necessarily the first or last day of a route. Open a pattern to see its exact scheduled service dates. Temporary rail replacement and special-service patterns are included when present in the source.
- Manually reconstructed versions generally contain published timetable timing points / major stops. They must not be read as complete roadside stop inventories.

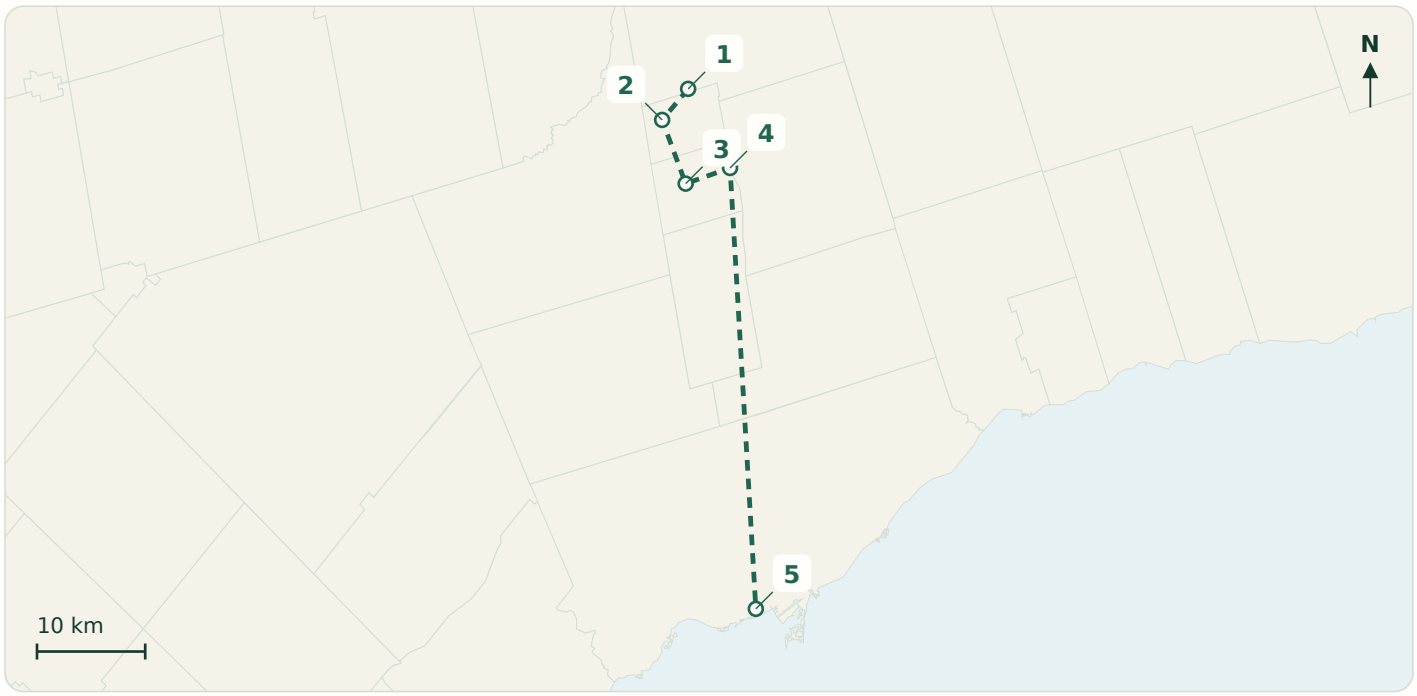

HISTORICAL RECONSTRUCTION | PATTERN 01 OF 71

65 | East Gwillimbury-Aurora-Union

Documented: 2009-06-27 | Direction: southbound

DOCUMENTED MAJOR STOPS / TIMING POINTS 5 stops

Sources: [S1]

Dashed line: schematic stop connections, not a street-by-street alignment. Stop areas do not establish exact historical platforms.

Representative timetable timing points. This older routing entered Newmarket Bus Terminal and reached Highway 404 via the Aurora area; it is not interchangeable with every later 65 branch.
