# 67 Keswick-North York / earlier Newmarket Highway 404

The current route family connects the Keswick/Highway 404 corridor with Finch. An earlier Table 67 describes Newmarket Highway 404 service; it should not be mistaken for evidence of a Keswick route in 2003.

| 16 | 2003 - 2026 | 207 |
|---|---|---|
| documented patterns | evidence years | listed stop occurrences |

Illustrated pattern: 67 | 67 - Woodbine/404 | Scheduled 22 Oct 2026 - 27 Nov 2026; feed captured 23 Oct 2026

A dated documentary atlas. Every pattern has its own numbered map and complete documented stop list. Reconstructed major-stop lists and full scheduled GTFS stop lists are identified separately.

# Route history

A snapshot proves what was published at that date. It does not by itself establish when a route began or ended. Reused route numbers and changing branch suffixes remain separate dated records.

- **2003-01-04**

  Table 67 is titled Newmarket Highway 404, running from Newmarket via Aurora and Highway 404 to Finch. [S1]

- **2012-09-04**

  First weekday operation of the new Keswick-Finch service from Glenwoods Park & Ride, via Aurora Carpool and Yonge/Sheppard. [S2]

- **2019-01-05**

  The original schedule shows the Woodbine/404, Queensville/404, Davis/404, Wellington/404 and Major Mackenzie/404 park-and-ride chain. [S3]

- **2023-09-02**

  The Keswick-Finch corridor is documented in the September timetable. [S4]

## Reading the maps

- Original GO feed: all scheduled stops are retained in their source order, including no-pickup and no-drop-off restrictions. The exact service dates are printed with the pattern.
- Historical reconstruction: the list generally contains published timing points or major stops. It is complete for that documented reconstruction, and may omit intermediate roadside stops.
- Solid lines use supplied feed shapes or an explicitly labelled corridor reconstruction. Dashed lines connect stop areas schematically. Number ranges mark close or co-located stops.
- Reference coordinates do not prove an old platform location. Stops without established coordinates remain in the ordered list; a stop-order diagram is used when a geographic map cannot be drawn.
- Exact transition dates between the original Newmarket Table 67 and the later Keswick route, and dates of each Highway 404 park-and-ride addition, remain to be established.
- These are documented dated snapshots. Changes between snapshots, temporary diversions and every historical local stop have not all been recovered.

# Evidence notes - continued

- GTFS dates identify captured feeds, not necessarily the first or last day of a route. Open a pattern to see its exact scheduled service dates. Temporary rail replacement and special-service patterns are included when present in the source.
- Manually reconstructed versions generally contain published timetable timing points / major stops. They must not be read as complete roadside stop inventories.
