91 Newcastle-Oshawa express

Express feeder from Newcastle and Bowmanville to Oshawa GO, complementing the slower route 90 local bus. It was replaced by route 88A in the 2020 restructuring.

5	2008 - 2016	97
documented patterns	evidence years	listed stop occurrences

Illustrated pattern: 91 | 91 - Oshawa GO | Scheduled 4 Jan 2016 - 5 Jan 2016; feed captured 11 Jan 2016

A dated documentary atlas. Every pattern has its own numbered map and complete documented stop list. Reconstructed major-stop lists and full scheduled GTFS stop lists are identified separately.

Contents

Use the clickable entries or PDF bookmarks to jump to a date, branch or direction. Pattern counts include separate directions, stopping patterns and boarding restrictions.

Route history and evidence notes 3

2008-08-30 | Historical reconstruction 4

01 91 | Newcastle-Bowmanville-Oshawa express | westbound 4

Route history

A snapshot proves what was published at that date. It does not by itself establish when a route began or ended. Reused route numbers and changing branch suffixes remain separate dated records.

- **2008-08-30**

  The original timetable distinguishes Newcastle-Bowmanville-Oshawa express 91 from local route 90. [S1]

- **by 2016-01**

  The original GTFS still contains route 91 and its Newcastle pattern. [S2]

- **2020-09-04**

  Last day of route 91. The replacement weekday 88A began with the September schedule changes. [S3]

Reading the maps

- Original GO feed: all scheduled stops are retained in their source order, including no-pickup and no-drop-off restrictions. The exact service dates are printed with the pattern.
- Historical reconstruction: the list generally contains published timing points or major stops. It is complete for that documented reconstruction, and may omit intermediate roadside stops.
- Solid lines use supplied feed shapes or an explicitly labelled corridor reconstruction. Dashed lines connect stop areas schematically. Number ranges mark close or co-located stops.
- Reference coordinates do not prove an old platform location. Stops without established coordinates remain in the ordered list; a stop-order diagram is used when a geographic map cannot be drawn.
- Later Newcastle local circulation differs from the simple 2008 timing-point diagram; the 2016 GTFS supplies its full stop sequence.
- These are documented dated snapshots. Changes between snapshots, temporary diversions and every historical local stop have not all been recovered.
- GTFS dates identify captured feeds, not necessarily the first or last day of a route. Open a pattern to see its exact scheduled service dates. Temporary rail replacement and special-service patterns are included when present in the source.
- Manually reconstructed versions generally contain published timetable timing points / major stops. They must not be read as complete roadside stop inventories.

HISTORICAL RECONSTRUCTION | PATTERN 01 OF 5

91 | Newcastle-Bowmanville-Oshawa express

Documented: 2008-08-30 | Direction: westbound

DOCUMENTED MAJOR STOPS / TIMING POINTS 5 stops

Sources: [S1]

Dashed line: schematic stop connections, not a street-by-street alignment. Stop areas do not establish exact historical platforms.

The bus bypasses Courtice and downtown Oshawa; the Lakeshore East train continuation is not part of route 91.

Ordered stops

1. Newcastle - Highway 2 / Mill St
2. Bowmanville - King St / Liberty St
3. Bowmanville GO Park & Ride - Prince William Blvd
4. Bowmanville - Waverley Rd / Baseline Rd
5. Oshawa GO - Thornton Rd / Bloor St

ORIGINAL GO FEED | PATTERN 02 OF 5
